

CeNano Textile Sealant

Instructions for use

Product description

CeNano Tex is an innovative protection for fibres based on nano technology. It is suitable for all kinds of fabrics, even for sensitive silk or sturdy cotton. CeNano Tex offers protection against dirt and fluids such as oil, coffee and other stains.

CeNano Tex – invisible protection

It's absolutely invisible, easy to clean and does not harm the appearance, the breathability or the colour.

How does CeNano Tex work?

CeNano Tex forms an invisible anti-stick coating on each single fibre making the fabric water-, oil- and dirt repellent. Don't worry about water, coffee, red wine or even gravy. Simply dab off any fluids with a cloth.

CeNano Tex - kind to your skin and environmentally friendly

There is no harm to your skin. CeNano Tex is solvent free, an aqueous polymer emulsion and absolutely environmentally friendly.

Where to apply

CeNano Tex is great for suits, jackets, shirts, trousers, ties, sports wear and rain coats. It is absolutely water repellent particularly on outdoor wear the garment remains dry much longer. CeNano Tex is ideally suitable for upholstery, curtains, mattresses, carpets, table-cloths, blinds and garden furniture. Apply on blouses, jeans, parka and motorcycle wear. Even accessories for the car such as carpets, child safety seats and car tops remain clean due to the invisible protection.

Application process

For the best effect, the fabric should be cleaned thoroughly before applying CeNano Tex. Apply CeNano Tex evenly with a pump spray bottle at a distance of approx. 15 cm. Just moisten the fabric slightly. Carpets can also be impregnated by foaming. Dry waste material with a cloth. Optionally you may use an iron to form the fabric.

Consumption

For an optimum effect apply approx. 25-100 ml/m² depending on the absorbency of the fabric. We recommend to test CeNano Tex first on a small surface. According to experience, the consumption for carpets is approx. 25ml/m² depending on mm pile height.
